2. [Redacted] of Operations briefed those present on the plans for coverage, such plans being based upon the ARC requirements. 25X1A9A

3. At the conclusion of [Redacted] presentation, Colonel Walker of the Air Force submitted a paper listing requirements which the Air Force requested be included in the peripheral coverage. This list was turned over by the Chairman to [Redacted] as intelligence guidance for use in operational planning. As an aid to gaining a more accurate conception of the capabilities for useful collection using the B configuration in peripheral missions, HTAUTOMAT presented a map on which were identified the areas on land

which would be covered from twenty miles out from the shoreline and targets within the areas along with an exhibit indicating what might be obtained under optimum conditions. The Chairman requested [ ] to make copies available to the members. The original map will be turned over to Operations for its use.

Peripheral ELINT

4. The Chairman inquired whether there were any comments which anyone wished to make with regard to plans presented two weeks ago by Operations in response to ARC peripheral ELINT requirements. There were no comments.
